

TEXAS GOLD...the point of convergence for the new TLBAA World Headquarters and Museum

This facility will move along our day-to-day business and at the same time acquaint the world with a breed that determined the character and occupation of the American cowboy. Half of the space inside our new 10,000 square foot home will be dedicated to meeting the important needs of nearly 4,000 members while managing projects that include sales, events, the Longhorn registry and our *Texas Longhorn Trails* magazine.

The other half will be dedicated to telling the riveting story of the Texas Longhorn. Our welcoming museum will walk you through more than 300 years of Longhorn mystique. You'll learn how this iconic breed was responsible for the birth of the American cowboy and the United States cattle industry. How it fed union soldiers up north after the Civil War, and how it pumped life into the famous Chisholm Trail. Displays focused on the Longhorn's future will widen your interest even further-on topics ranging from lean beef to breeding to the breathtaking horn structure that always holds our gaze. From artifacts to educational stations, this will be a museum for Texas neighbors, international visitors and you.

Won't you join us in funding this worthwhile cause? It's Longhorn history and your future...
