Select Sale

Sunday, October 4

All Cattle Must Be Removed

By 12:00 pm

ALL FEMALE ENTRIES

• A Horn Showcase female entry must have had at least one registered TLBAA calf, be nursing a calf at side or be confirmed bred by 36 months of age by palpation, ultrasound or BioPRYN blood test conducted 60-days past breeding and be so noted on a health certificate signed by a veterinarian and furnished to the show office.

EXHIBITOR'S CHOICE

- Awarded to the owner who has the most animals entered and officially measured for the Horn Showcase.
- There will be one point awarded for each animal entered in a measuring class.
- Animals can be measured in Lawton or at satellite locations.
- Animals must be listed with the same ownership name. Ownerships listed in a single name or two names associated with a ranch name will be considered as the same ownership.
- Partnerships will be considered a separate ownership.
- In the event of a tie, all winning owners will be declared as winners and receive award.

Examples: John Smith, Ann Smith, John & Ann Smith, or Smith Longhorns will all be considered as the same ownership.

(John or Ann) Smith/Brown Partnership will be considered a separate ownership.

ULTIMATE COW & BULL AWARD

- One bull and one female will be chosen based on popular vote.
- Animals must be present in Lawton to be eligible.
- Ballots will be available at the TLBAA desk during the event for voting.

HORN SHOWCASE FUTURITY

The TLBAA HSC Futurity is set up by age divisions to allow breeders the opportunity to exhibit the total package animals that represent their breeding operation.

- There is a 75% cash payout based on the class size. Payout will go to the top 20% of the class.
- Animals must be entered in at least one horn measurement contest.
- Animals will enter the ring based on age. Youngest to oldest. When the animal being exhibited walks into the ring, the 5 judge panel will be given the animals DOB, and a horn measurement taken from the previous day. It will be a TTT, TH, Twist for the females, and a TTT, or TH for the males in the contest.
- With the 5 judge panel, the high score and the low score will be thrown out and the remaining three judges will be added together for the final score. In the event of a tie there will be a tie breaker judge selected in advance. That judge's score will be the tie breaker in the event of a tie.
- Animals must measure in at least one measurement class to participate in Futurity as well as be eligible for a Superior Award.

GET OF SIRE AND PRODUCE OF DAM

- Get of Sire and Produce of Dam will each offer a Junior Division and a Senior Division.
- Each Division is based on the age of the offspring of the animal entered. The Junior Division consists of offspring between the ages of two and five years of age. The Senior Division consists of offspring six years and older.
- Sires must have three offspring in any (Jr. or Sr.) Division to compete in that Division. All offspring must be measured in TTT, TH & Composite.
- Dams must have two offspring in any (Jr. or Sr.) Division to compete in that Division. All offspring must be measured in TTT, TH & Composite.
- Both living and deceased bulls and cows can be entered since entries are based on measurements of offspring.
- Scoring for each animal will be computed by adding the values of TTT, TH and Composite of all three offspring for a bull or both offspring for a cow. The bull or cow with the highest value of the total added measurements amongst offspring will be the winner.
- Animals do not need to be present to compete in this class - can be measured at a satellite or in Lawton.
- Only breeding animals (Bulls or Cows) can compete as offspring.
- Offspring may be produced by natural breeding, artificial insemination or embryo transfer.

HORN SHOWCASE SUPERIOR AWARD

This innovative award showcases our most elite animals that possess the total package we all strive for. To achieve the Superior Award, animals are required to compete in the horn measurement contest, as well as be judged on conformation in the Horn Showcase Futurity.

- To win the Superior Award, you must receive the smallest number in the points system. 1st is granted 1 point. 2nd granted 2 points, and so on. This will be the same for the Futurity as well as horn measurement.
- In the Futurity, you must place in the top three in your class to be eligible to compete for the Superior Award, as well as placing in the top 3 in any measurement class (Tip to Tip, Total Horn, or Twist for females) or (Tip to Tip or Total Horn for bulls) to be eligible.
- Example of how Superior animal is awarded: Animal with the lowest number of points wins "Superior." If there is a tie for Superior, then both animals will be awarded.

BULL ALLEY

- Bulls must be TLBAA A.I. certified and have an A.I. certified number to sell semen and participate in most straws sold.
- Bulls that are living must be present in Lawton, OK; deceased bulls may be entered for semen sales only. (Deceased bulls may have their offspring on site to represent them)
- Each owner should bring a semen tank with semen for sale or have semen sent to Champion Genetics. Must have 50 straws minimum available. If less than 100 straws available, seller must pay shipping to buyer.
- No minimum straw purchases allowed.
- Bulls must be entered in a measurement class.
- Syndicated A.I. Sires may participate.

EMBRYO ALLEY

- Donors or their offspring must be present.
- Embryos do not have to be present.
- Owners can sell frozen embryos or embryo pregnancies.
- Animals will be highlighted in the same manner as Bull Alley
