Once you are ready to pay, **Close and Invoice.**
Staff will complete the calf registrations once all applicable fees have been received
NOTE: Registration certificate(s) will not be mailed until payment has been received by TLBAA.

A – From left to right you will fill out the Dam's Registration Number, the Date of Birth of the calf to be registered, Select Service Type, the Sire's Registration Number, Sex of the Calf, Twin Code and Calving Ease Description.

B – From left to right you will fill out the TLBAA Membership Number related to the Holding Brand (this will automatically generate, only change if your brand is not on the animal), Select Holding Brand Location, Fill out Private Herd Number, Select Private Herd Number Location, Name the Animal, (Ear Tag, EID and Weight are not required, but can be used for data and in-herd management)

C – From left to right fill in the color description of the animal (Required on all applications) and when/if the steer was castrated (IF APPLICABLE).

D – From left to right you will fill out the Date of AI (Artificial Insemination) or NS (Natural Service) Start and End Dates, Flush Date, Embryo Transfer Date, the Recip Dam Registration Number *(IF APPLICABLE)*

E – Attach any data file to this animal's page (for ex: document with DNA Genetic Markers, Immunization Records, etc.) On the Lower line, select if this animal is for recording purposes only (Not a full registration), if the animal is For Slaughter only (For Slaughter Certificate) or if it is a Miniature Texas Longhorn.

F – Any Errors/Warnings will appear in this section with either red or yellow alerts.
